THE OMKAR ADVANTAGE

Engineered for performance. Designed for life. Our aluminium systems combine strength, precision and innovation to deliver solutions you can rely on.

STRENGTH & SAFETY

T6 grade aluminium with tempered / laminated / insulated glazing and advanced locking systems.

AESTHETICS

A wide range of finishes including anodizing, PVDF, powder coating and PU wood coating for design versatility.

SOUND & HEAT INSULATION

Precisely engineered systems with gaskets and hardware for excellent heat and sound insulation.

DRAINAGE SYSTEM

Internal water drain slots, raised tracks and gradient design help prevent water stagnation.

DURABILITY & LOW MAINTENANCE

45° machine-cut frames, precision machining and quality hardware ensure long life with minimal maintenance.

PRECISION ENGINEERING

Italian precision machines, accurate fabrication and strict quality checks for superior performance and finish.

Quality in every profile.
Performance in every space.
